LOCAL SURF
TIPS

Here are a few helpful tips to help you get your bearings at Pavones ...

1

Pavones is a left point that breaks for over 1km producing rides of, well, over a minute long. The first section tends to be racey and as it comes through the rivermouth pitches into a barrel section and then the last section of the wave features nice open faces perfect for rail to rail surfing.

2

The ideal swell direction for Pavones is between 190-210 degrees and the bigger the better, it can easily hold triple overhead surf.

3

The surf season with the most consistency and best conditions is between March - September, with standout months being April June, & July.

4

Pavones is a great place to learn how to surf, the length of the wave and variety of sections offers a truly unique playground for any surfer regardless of their level.

5

There are several other waves to explore in the immediate Pavones area. Including 4 different world class breaks in a 20Km stretch of coastline.

A surfer is captured in the middle of a high takeoff on a wave. The surfer is wearing a dark wetsuit and is leaning forward over a white surfboard with a red stripe. A massive splash of white water is erupting behind the surfer, partially obscuring them. The water is a vibrant turquoise color. In the background, the ocean stretches to a dark, forested coastline under a cloudy sky.

6

Matapalo Boat Trip

3 world class **right** point breaks worth checking out on your trip to Pavones. It is a 45 minute boat (panga) ride to Matapalo across the bay and typically ranges between \$200- \$300 per boat. The cost is divided among 4 or 5 surfers.

7

Surf School/ Lessons

Look up for Una Ola Surf School for surf lessons and local surfing knowledge.

Ask for Colin.

8

RESPECT LOCALS

Always remember to **RESPECT** the locals and wait your turn. If you don't know the rules it's always better to ask.

Sign up for our newsletter and we will send you swell alerts and local knowledge to ensure you are dialed in and up to date with the next epic swell in the horizon.
